BIOSTIMULANT - NPK - Mg & MICROS

# BLOOM

## FLOWERING AND FRUITING

DOCTOR LEAF BLOOM - 1L Organic Liquid Flowering Fertilizer for Cannabis - Increased Flowering and Improved Production of Quality Buds-NPK (1-2-3)+1Mg boosted with specific amino acids and essential microelements - All Types of Varieties.

ENHANCES ABUNDANT FLOWERING and THE PRODUCTION OF BEST QUALITY BUDS - Doctor Leaf BLOOM is an essential organic fertilizer for the flowering phase of cannabis. Its balanced supply of phosphorus and potassium makes the plant generate abundant energy for a vigorous and robust fructification. At the same time, the nitrogen supply is balanced so that the vegetative growth is moderate and the plant concentrates all its energy on fruiting.

NPK (1-2-3)+1Mg with specific AMINO ACIDS for flowering and essential microelements for the correct physiological development of Cannabis. Its powerful formulation favors the optimization of photosynthesis by boosting a higher production of sugars and starches for the benefit of abundant flowering and a better quality bud production.

100% ORGANIC PRODUCT - Doctor Leaf's BLOOM Organic Liquid Fertilizer has been carefully formulated with 100% natural and organic ingredients including: Essential Amino Acids, organically sourced NPK and Magnesium, Boron, Manganese, Molybdenum, Copper, Zinc and Iron compounds.
