DOCTOR LEAF BUD -1L Organic Liquid Budding Fertilizer for Cannabis - Budding Fertilizer - Promotes the Quality and Properties of Buds, Seeds and Resins - All Types of Varieties.

BUDS, SEEDS AND RESINS OF HIGHER QUALITY - Doctor Leaf BUD is a high quality organic liquid bud fertilizer for cannabis whose powerful formulation helps to improve the energetic and structural reserve of the bud, favoring the formation of oils, its densification and fattening.

BIO-STIMULATING FERTILIZER FOR THE FRUCTIFICATION PROCESS OF THE BUD ESSENTIAL AMINO ACIDS AND EXTRACTS OF VEGETAL ORIGIN - Helps to improve the energetic and structural reserve of Cannabis, favoring the formation of oils in the bud as well as its densification and fattening. It also stimulates the microbial flora and fauna of the soil and its level of activity, promoting the absorption of essential nutrients. Cannabis also exerts an osmoprotective action against abiotic and biotic agents.

100% ORGANIC FORMULATION - Doctor Leaf's BUD Organic Budding Liquid Fertilizer has been carefully formulated with 100% natural and organic ingredients. All its ingredients play an important role in the generation and gene expression of the plant, helping it to use its vital energy to produce very good quality buds.
