ENHANCER

ENHANCER OF VEGETATIVE DEVELOPMENT FLOWERING AND FRUCTIFICATION

DOCTOR LEAF ENHANCER - 1L Organic liquid fertilizer for Cannabis to enhance all phenological stages: Growth, Flowering and fruiting of the bud - Seaweed extract enhanced with calcium - All types of Cannabis varieties.

FAVORS THE GROWTH, FLOWERING AND PRODUCTION OF BUDS - Doctor Leaf ENHANCER is an organic liquid fertilizer whose application is recommended during all phases of the phenological stage of cannabis. Osmoregulator and dynamizer of the processes linked to the growth of the bud, it provides Calcium for the strengthening of the tissues and densification of the cannabis and favors the retention of the buds created and their fattening.

SEAWEED EXTRACT WITH CALCIUM - Its powerful formulation favors plant development in every stage of growth. It also improves the plant's defense against pathogenic fungi and attenuates possible abiotic stress due to excess salinity, excess irrigation, temperature changes, heat... avoiding the loss of production, increasing net photosynthesis and the amount of chlorophyll.

100% ORGANIC FORMULATION - Doctor Leaf's ENHANCER Organic Growth, Flowering and Budding Liquid Fertilizer has been carefully formulated with 100% natural and organic ingredients that provide plant nutrients that trigger the biosynthesis of growth regulators that promote flowering, fruit set and fructification of the plant.
